

# The FEARS Model

change the meme, then there can be a change in behaviour

memeplex - a combination of mimesis and memesis  
A0 is a memeplex

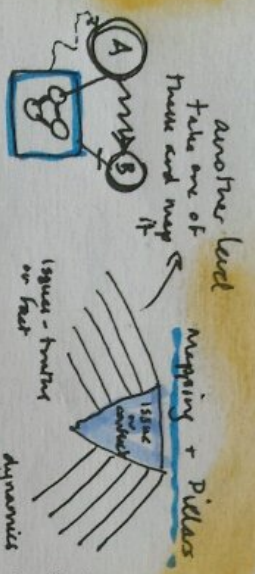

# Coping with Conflict: Colin Craig

4 October 2016

check in

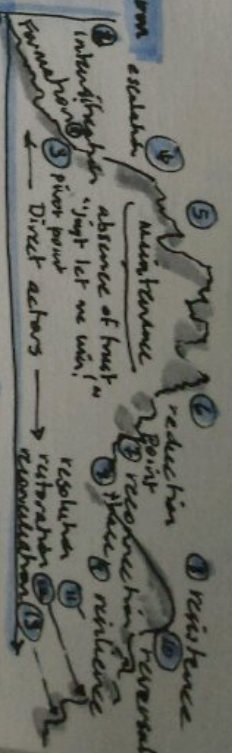

All conflict is either **intra** or **extra** system  
 either **unconscious** or **conscious**  
 a lack of **ENERGY** spreads, the more complex it becomes  
 Remember, we are **EVOLUTIONARY** beings  
 Subconscious learned systems 1/2 - 1/4 see in advance of conscious mind

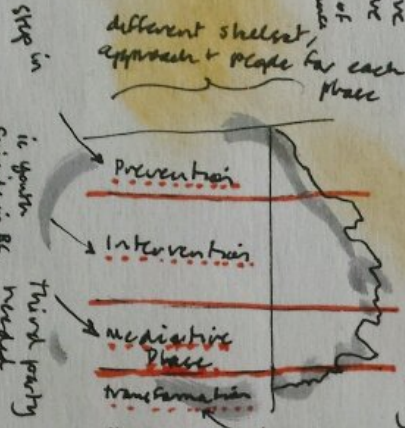

vicarious experience  
 this is the story of the system  
 dynamics perceived  
 show - what are the symbols of reconciliation  
 speak with: looking for allies  
 social media feeds the excesses, not the successes  
 we tell the story, but we don't retell the story

## The Iceberg Model

Conciliating complex divisions + leadership capacity + faith to host hope  
 How do we live well together?  
 There is yearning in the world into it  
 let us free wide open with eyes wide open  
 ... with hope

it is your suicide is 80, other sides together  
 think party  
 in, arguments, voluntary (both sides agree)  
 The quality of mediation  
 releasing + holding support  
 interested in crisis/negotiables not not cause

- Connect people in many different small ways - people are entangled - see what is maintaining the system as it is? The problem is back in the valley, not on the mountain top
- a conscious working movement - trying to take people back
- looking at the issue, agreement to go forward, but haven't least with compromise. Humans are loss averse - facing loss more than gain. People fade almost what they had to give up
- Needs analysis - setting up patterns to break the habitual relationship - 30-50% of the time have + experience of new possibilities

- body is 3 prepping, high disturbance pilot comes, come quickly
- the perception of imbalance
- maintainance state, recycling. highly invested - hell/ win/ lose situation heaven
- committed, know; giving up wanting to strike/ power win
- reignite resistance - giving up the world! we will be if we will be if we will be if
- maintainance this doesn't state, recycling. highly invested - hell/ win/ lose situation heaven
- After about 3 days, heaven you burn out! huge residue of pain, hurt, air hurt
- space - heaven because you can blame others

restoring the sense of relationship between the parties - active
